AFTER GAS AND OIL.

Preparations Being Made to Prospect Field Bordering on Utah Lake.

Field Bordering on Utah Lake.

(Special to The Herald.)

Provo, July 28.—The indications for gas and oil in the region around Utah lake have generally been considered favorable by persons who have had experience in oil and gas fields in other parts of the country, but no prospecting has so far been done for either, although flows of marsh gas have frequently been encountered in driving artesian wells.

When boring for oil was commenced this year in the Salt Lake valley interest was again directed to this section and considerable correspondence has been had by Prove parties with eastern and western oil men, with a view of having experis visit the country and place oil drills in the field.

Judge W. N. Dusenberry made a trip to Los Angeles, where he has influential and wealthy friends among the oil magnates, and was encouraged by them to take steps to secure ground around the lake on which to prospect for oil. He has done so and has now secured options on many thousands of acres on the east shore of the lake, and it is believed he will have drills brought here from California and the ground thoroughly prospected.

W. H. Hendrickson and other Salt Lake.

OUTLOOK FOR COPPER.

Foreign Visible Supply Diminishing -Manufacturers Stocking Up.

"The market for lake copper may be nsidered strong at 12% cents bid. Excits of the metal this month up to and cluding July 19 amounted to 10.375 tons, sich is 2.000 tons greater than the excits for the entire month of July a year 0. It is believed that the August and ptember shipments will be corresponding large.

September shipments will be correspondingly large.

"The foreign visible supply continues to decline, and while the present shipments abroad may not go into immediate consumption, the consuming manufacturers are convinced that the price is not to go lower and are disposed to stock up against future necessities. There is no evidence that the shipments are to fill speculative contracts, while there is abundant evidence that foreign consumption has vastly improved during the past six months.

"Horage J. Stevens the assistant commissioner of mineral statistics for the

SAPHO IS TO BE WORKED. Big Mines of Ely.

SACRAMENTO'S DIVIDEND

AFTER OIL ON SHORES OF UTAH
LAKE.

The supreme court has handed down a decision in the case of Mrs. Phoebe
A. Hearst and James B. Haggin against the Putnam and Quincy Mining company and the New York and Nevada Aproperty as the sis in the district.

McLaughlin, as administratrix of the estate of D. C. McLaughlin, deceased; W. W. Armstrong, James T. Clasby, James Farrell, W. V. Rice, David D. Edwin, Henry Newell, David Keith and Walter Scott, affirming the judgment of the lower court, which dismissed the suit brought by Mrs. Hearst and J. B. Haggin.

These two owned a small number of Shares in the Putnam Mining company.

Manaager Says it Will Make One of Ely.

Big Mines of Ely.

Previous to leaving for the west yesterday noon, P. C. Weber, manager of the Sapho company's properties, spoke of the Company is properties, spoke of

These two owned a small number of shares in the Putnam Mining company of Park City. This concern, to get out of debt, sold to the Quincy Mining company some of its property for \$50.000. The property developed into the Quincy bonanza, which was sold to the Daly-West company, which is still reaping profits from the ground.

Mrs. Hearst alleged that the sale by the Putnam company of its property for the small sum of \$50.000 was fraud, Ferry, its vice president, being in col-

go it single handed for some time to come.

As it happened, the United States company will not be handicapped at all in the transportation of its ore, as an accident at the Utah Copper company's pumping plant will necessitate a few days' close down of its big concentrator, thus relieving the cars on the Copper Belt used to supply the plant with ore. Under those conditions, Superintendent Mayberry was able to have the cars go into the service of the United States company for the time being.

SACRAMENTO DIVIDEND. Distribution of \$5000 to be Made on Monday Next.

The Sacramento Gold Mining company declared a dividend of \$5,000, or one-half tent a share on the capital stock of the corporation Wednesday, and the books closed against transfers last evening. The distribution will be made Monday next, August 1 be gone a week or more.

Three cars of ore from Idaho and one from Tintic were reported at the Taylor & Brunton sampler yesterday morning.

Superintendent J. H. Keetley, of the Silver King Consolidated, was down from the Park on company business yesterday.

distribution will be made Monday next, August 1.

Reports from the mine and the mill of the company are to the effect that the usual tonnage is going through and that the regulation saving is being made. Since the new mercurial retorts were installed several weeks ago considerable experimenting has been done, and now the amouncement is made, the "boiling out" of quicksilver is progressing without interruption. That being true, there is little doubt but dividends will be forthcoming regularly for the remainder of the year.

dated Mercur Strong in Bidding.

Daly-West opened with sales at \$11.25 on 'change yesterday, but at the close it commanded \$14.50. Tetro was let down from 30% to 29c, the final sale being at 29½c. Consolidated Mercur was very strong in the bidding. 33c being offered at the close, with no stock coming out:
Butler-Liberal, Carisa, Uncle Sam, New York and the remaining few participants in the trading held steady, with signs that better prices might prevail.

During the day a total of 10,070 shares of stock, with a setting value of \$4.223.55, changed hands, closing quotations being marked up as follows:

Prices Largely Subjected to London Influence.

New York, July 28.—Today's stock market turned to a large extent on the Anglo-Russian relations, and was a striking demonstration of how large an influence the same cause had in yesterday's market. Not only securities, but all other feet, but only securities, but all other feet. Not only securities, but all other feet markets were influenced, Grain markets here relaxed in spite of gome r umors of unfavorable developments in the spring wheat region. Stering exchanges reacted decisively from the gold export point. Stocks in New York regalized rather more than they lost yesterday. London bought back from her this buying was the main factor in holding the early advance, on which there was free realizing and a consequent hall in the upward tendence. But buying of all the strongest slocks today, although it was longer to the strongest slocks today although it was longer to the strongest slocks today although it was longer to the strongest slocks today although it was longer to the strongest slocks today although it was longer to the market in addition to the strongest slocks today although it was longer to the market in addition to the strongest slocks today although it was longer to the market in addition to the strongest slocks today although it was longer to the strongest slocks today although it was longer to the strongest slocks today although it was longer to the strongest slocks today although it was longer to the strongest slocks today although it was longer to the strongest slocks today although it was longer to the strongest slocks today although it was longer to the strongest slocks today although it was longer to the strongest slocks today although it was longer to the strongest slocks today although it was longer to the strongest slocks today although it was longer to the strongest slocks today although it was longer to the strongest slocks today although it was longer to the strongest slocks today although it was longer to the strongest slocks today although to the strongest slocks today although to the Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$56,500, as follows: Silver, lead, gold and copper ores, \$55,200; base bullion, \$15,500.

U. S. ref. 2s reg. 104% Man. consol gold from the list.

S. M. Levy went out to Alta yesterday to make an inspection of the Kennebec company's property. It is understood that the long operating tunnel is being driven into something pretty good.

The cross-cut from the bottom of the winze sunk from the 250-foot level of the Comstock, at Park City, has gone through solid ore for twenty-five feet and still there is no sign of the opposite wall to the vein.

Milan Packard, formerly president of the Star Consolidated company, came up from the south yesterday and went into consultation with present officials. There is a feeling that the affairs of the company as they relate to the doings of the old management, will be adjusted without recourse to the courts.

The suit now being tried before P. L. Williams, referee, was brought by the Eureka Hill company to collect damages for ore alleged to have been taken by the Bullion-Beck. Its value is placed at \$20.

Management, will be adjusted without recourse to the courts.

The suit now being tried before P. L. Williams, referee, was brought by the Bullion-Beck. Its value is placed at \$20.

Management, will be adjusted willful trespass, plaintiff expects to recover three times the amount stated.
